# ANTENNA-RD AIRCRAFT BAND 118 - 125 MHz

*Perfect for L-854 receiver decoders requiring short-range reception such as Heliports, Heli-pads & Heli-Hydrants*

## FEATURES

Rubberized 6 ½" super efficient VHF antenna show an OMNI directional 3 dbd gain, they are impedance matched to a hand-held radio. Strong and flexible, sealed in synthetic rubber and NT-MIL coverings. This flex coil matching network provides a band center low SWR & will perform between 118 - 125 MHz

## SPECS

- BNC Connector
- Helical Elements Construction
- Exterior exclusive NT-mil covering
- Dipped in synthetic rubber to provide a weather seal & web coil, preventing distortion
- Highly efficient copper-plated helical wound hardened steel wire
- Flow-soldered nickel-plated brass base

**ITEM CODE: Antenna-RD**

## **Antenna Magnetic Mount with BNC Female - BNC Male Type for Aviation Antenna-RD or similar**

*Perfect for L-854 receiver decoders requiring short-range reception such as Heliports, Heli-pads & Heli-Hydrants*

- Heavy-Duty magnetic mount 3in diameter
- 13ft RG-58 coax cable included
- BNC Female for the center of Magnetic Mount, and BNC male on the cable end

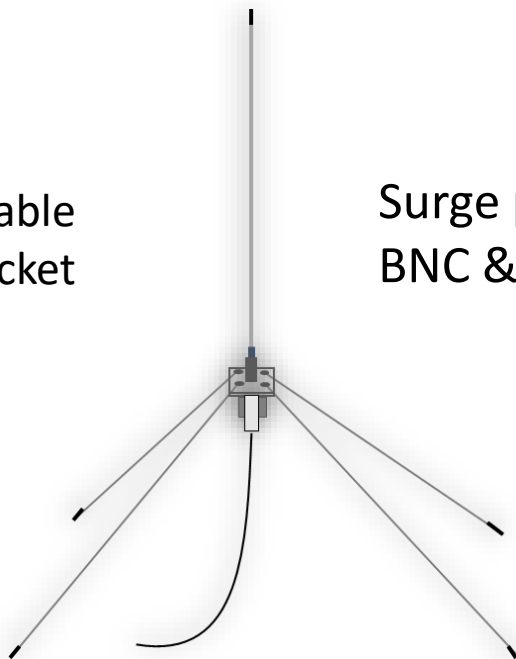

**ITEM CODE: Antenna-MG**

## Heavy-Duty Antenna-CF Kit
